

Features and Benefits

The Swing-Out Patch Panel is a light-weight, robust fibre optic patch panel designed for the installation of up to 48 standard optic fibres or Laserstream™ blown fibre. The panel offers an economic alternative to metal fibre enclosures. The lower tray is designed to pivot to gain access to the pre-formed fibre and splice management areas for easy cable dressing and installation. All common adapter types: LC, SC and ST are factory assembled into interchangeable front plates that accommodate 6/12 duplex or 12 simplex adapters each.

- Manufactured from high-strength, light-weight UL94 V-0 rated material
- All fibres positively managed to 30mm minimum bend radius
- Bottom half of panel pivots out for access to splice tray and pigtail routing area
- No additional cable management accessories required
- Compatible with Laserstream blown fibre tubes (5mm)
- Stackable splice bay allows for easy upgrade of splicing capacity
- Interchangeable front plates are fully loaded with adapters
- Chassis includes installation accessory kit as follows:
 - 2 x splice holders
 - 1 x cable anchor bracket kit
 - 2 x tight buffer fibre holders
 - 1 x tight buffer inserter tool
 - 1 x front plate label sheet (4 labels per sheet)
 - 1 x 435mm bend limiting tube
